

Scoop - Allermuir

Visually minimal, Scoop is simple, compact and clever. Clever in that each item stacks. Simple construction; tubular Steel frames and pressed ply seats with their own unique character give Scoop a freshness over and above the plethora of existing mono shell designs on the market.

All seats are veneered with either a rich Alpi-Lignum design similar to Zebrano, or with a Beech veneer, which can be stained to achieve a choice of alternative shades.

Product Specification

Design: 'Scoop'

Designer: Fraser Lee

Fraser Lee graduated from the Royal College of Art in 1984, exhibiting at numerous shows; he won a number of design awards, including a travel scholarship. In 1987 he formed JFL Design and in that year his work was selected by the Design Centre and exhibited in London and Glasgow.

He continues to work on projects for both the contract and domestic arena. Scoop resulted from Fraser's collaboration with Allermuir, which is amongst his first with a furniture manufacturer for their own collection.

Features:

Visually minimal, simple, compact. Every item, including high stools can be stacked. The stools offer a good level of comfort, more than just a perch. The chairs provide a very comfortable sit derived from the double curvature, mono shell form. There are many mono shell chairs on the market, but this one certainly has a freshness and unique character of its own amongst others of its type. It is less predictable in style with its elongated slot in the back, delicate balance of form, curves and slender proportions! In addition to this the 'Alpi' veneer also sets the range apart from competitor products.

Finishes:

The frames can be Epoxy Polyester Powder Coated (EPPC), bright polished or satin chrome plated from our range of metal finishes. The seats come in an 'Alpilignum' veneer, which is similar, although not as dark as Zebrano veneer. The veneer 'grain' runs across the seats with a 'stripy' effect. This can be clear lacquered or stained and lacquered. For solid coloured lacquer a beech veneer would be used, which will be visually obliterated by solid colours, hence its use in place of the Alpilignum. Alternatively we are offering the range in beech veneer as a clear lacquered or stained and lacquered finish in its own right.

Alpilignum:

Alpi S.p.A. is an Italian company established in 1919 and named after its founder, Pietro Alpi. Alpi Lignum is one of their products. Obtained from renewable wood sources Alpilignum is rotary veneered (peeled by rotating the log onto the saw to produce thin layers or veneers), dyed and laminated (layered and bonded) into a 'new log', which produces veneer consistent in colour design and size when it is then re sliced. It is in effect a veneer that reproduces all species of natural wood, or new patterns not existing in nature that are developed by the constant research of architects and designers. What you touch though is wood!

The light woods used to produce Alpilignum are mostly Poplar from Italy and Ayous from Africa (also more commonly known as Obeche).

Marketplace:

This design ideally lends itself to restaurants, cafes, bistros and the burgeoning number of coffee and teahouses appearing in the UK's cities and larger towns.

Products available in range

A430
High stool
Beech clear lacquered or Alpi 243
Round steel tube frame

Dimensions:			
Overall	820h	440w	450d
Seat	755h		
Weight	5.5kg		
Stacks	4 high		

A432
Side chair
Beech clear lacquered or Alpi 243
Round steel tube frame

Dimensions:			
Overall	890h	510w	540d
Seat	455h		
Weight	6.5kg		
Stacks	8 high		

A435
Armchair
Beech clear lacquered or Alpi 243
Round steel tube frame
Round steel tube arms

Dimensions:			
Overall	890h	540w	540d
Seat	455h		
Weight	6.5kg		
Stacks	8 high		

A405
Round table
Round steel tube
Laminate top

Dimensions:			
A405/6RD	740h	600dia	
A405/7RD	740h	750dia	
A405/9RD	740h	900dia	

A405
Square table
Round steel tube
Laminate top

Dimensions:			
A405/66	740h	600w	600d
A405/77	740h	750w	750d
A405/99	740h	900w	900d

A405
Rectangular table
Round steel tube
Laminate top

Dimensions:			
A405/127	735h	1200w	750d
